TYPE AND LAYOUT RULES · WHOLE SITE

One type scale for every FinLit page

Measured on all 50 pages on 4 Nov 2026. The site's 37 style files set at least 70 different font-size values. The company report alone uses 42, from 7.2px to 60px, and 31% of its text is smaller than 12px. Eleven sizes replace them all.

sizes after the change

The scale

Inter for everything you read and every number; Source Serif 4 only for page, section and card titles. Numbers use tabular figures so columns line up.

Token	Size / line	Sample	Use it for
`--fs-11`	11 / 16	MARKET BREADTH	Eyebrows, chart axis ticks, legend keys. Labels only.
`--fs-12`	12 / 16	Updated 4 Nov 2026 · source NSE	Captions, timestamps, table headers, chips, footnotes
`--fs-13`	13 / 18	P/E 19.4 · 4 days of buying	Secondary text, labels, dense table cells
`--fs-14`	14 / 20	Revenue grew 35.4% from a year ago	Default: card and table text, menus, buttons
`--fs-16`	16 / 24	₹2,322.60 +3.50%	Reading text, key values, every form input
`--fs-18`	18 / 24	Latest quarter results	Card titles
`--fs-20`	20 / 28	Market today	Section titles
`--fs-24`	24 / 32	23,750.00	Big numbers (KPIs, index level)
`--fs-28`	28 / 36	Asian Paints Ltd	Page title on phones, report section titles
`--fs-32`	32 / 40	Good afternoon	Page title on desktop
`--fs-40`	40 / 48	71 / 100	Hero numbers (score dial)

Rules: nothing under 11px, and 11px only for labels, never sentences. Every form input is 16px (smaller makes phones zoom in). Marketing pages keep their large display headings (44px and up).

Old size → new size

Font-size rules in the live CSS that change (about 960). Another 954 are already on the scale.

12.5px →	**13px**	338
13.5px →	**14px**	230
11.5px →	**12px**	83
15px →	**16px**	72
14.5px →	**14px**	57
10.5px →	**11px**	31
17px →	**16px**	28
10px →	**11px**	27
22px →	**20px**	15
9.5px →	**11px**	12
15.5px →	**16px**	12
19px →	**18px**	10
9px →	**11px**	9
21px →	**20px**	9
26px →	**24px**	7

Smaller ones: 23px, 25px → 24 · 16.5px → 16 · 30px, 34px, 36px → 32 · 38px → 40 · 8px, 8.5px → 11.

Cards, controls and spacing

Today there are two card styles and four sizes of card title. One of each from now on.

Card	Radius 16px, 1px border #DDD3BD, background #FDFBF6, padding 20px 24px (16px on phones)
Gap	16px between cards, 8 / 12 / 16 / 24 for everything inside
Card title	Source Serif 4, 18px, 600; section titles 20px; subtitle 13px muted
Buttons	40px tall on desktop, 44px on phones, text 14px 600
Chips and tabs	36px tall on desktop, 44px on phones, text 13px
Icon buttons	40px square with a 16px icon; help "?" icons 20px, not 22px boxes with 10px glyphs
Tables	Header 12px 600 muted, cells 14px, numbers right-aligned in tabular figures
Colour on tiles	White text only on tiles that pass 4.5:1 (greens #1F6B49 and darker, reds #A12E26 and darker)
Empty and loading	Grey placeholder blocks while loading; empty-state text only after data returns empty

Card title

Subtitle or date

Body text sits at 14px with 20px lines.

Chip **Button**

The company report

Checked on Asian Paints: 3,938 pieces of text, 42 sizes, 31% under 12px, smallest 7.2px, and a page about 45 screens long. The fonts themselves are right (Inter for text and charts, Source Serif 4 for the 19 section titles at 32px); the sizes are the problem.

Sections with the most small text (share under 12px)

Price history, statements and filings	**74%**
How sales, profit and cash have moved	**73%**
Sep 2026 quarter against a year ago	**59%**
How it compares with its peers	**49%**
Triggers to watch	**44%**
Cash returned to shareholders	**37%**
Top of the report (header, score, price)	**29%**

The tiny pieces, and their new size

Chart axis numbers and years (about 250)	**9.5–10.5 → 11**
Info "i" icons (72)	**10 → 12**
Sort arrows ▲▼ (47)	**9 → 11**
"Score" labels (32)	**9.5 → 12**
Trend chips like "Weakening" (26)	**10 → 12**
Plan badges "Basic" / "Gold" (21)	**10.5 → 11**
Insight tags like "Strength" (11)	**9.5 → 12**
Dates like "As of 03 Nov 2026"	**9.5 → 12**
"/ 100" inside the score ring	**7.4 → 12**
"In simple words" explainers	**10.5 → 13**

Every page, today

Font sizes in use on each page's main area, worst first. After the change every page uses at most the eleven sizes above and nothing under 11px.
